| | |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Subject: | National Standardisation Bodies – peer review (including SMEs & civil society inclusiveness) |
| Co-Leaders: | SBS + CEN-CENELEC |
| Associated members: | <ol style="list-style-type: none">1. Belgium2. The Netherlands3. ANEC4. Digital SME Alliance5. ECOS6. ETUC7. Orgalim8. SMEunited9. T&D Europe |
| Remarks: | CEN-CENELEC initially submitted a proposal on “Greater involvement of SMEs in standardization” under the “Inclusiveness of civil society and SMEs in international standardisation” area. Since it is mainly via the NSBs that the greater involvement of SMEs should happen, it was requested and agreed to merge it with the proposal of SBS. |

| | |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Subject: | DIGITAL PRODUCT PASSPORT (DPP) => revised |
| Leaders: | CEN + CENELEC |
| Associated members: | <ol style="list-style-type: none">1. Belgium2. Denmark3. France4. The Netherlands5. ANEC6. DigitalEurope7. ELA8. Orgalim9. SBS10. T&D Europe |
| Deliverables: | One or more workshops jointly COM and CEN/CLC and with the help of the HLF members to collect a broad stakeholder perspective on all kinds of needs and requirements regarding effective standardisation work on the DPP. |
| Remarks: | <ul style="list-style-type: none">- The proposal should focus on the DPP system, because it is rather premature for DPP data structure. The Workshop should suggest solutions more than needs that are identified by COM with Ecodesign for Sustainable Products Regulation (ESPR) and Standardisation requests.- On 12/06/23 webinar organized by COM on DPP standardisation efforts. |

Proposals selected - Digital

12

| | |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Subject: | DATA INTEROPERABILITY => revised |
| Leader: | CEN |
| Associated members: | <ol style="list-style-type: none">1. The Netherlands2. BusinessEurope3. CENELEC4. ELA5. SBS |
| Deliverables: | A workshop to collect information from stakeholders. A task force to design the workshop and develop recommendations to the ESOs. A report by end of 2023. |
| Remarks: | The workshop could be in September in cooperation with CNECT and the input of the Data Spaces Support Centre to prepare the work for the upcoming European Data Innovation Board that should issue guidelines on how to facilitate the development of data spaces, among other tasks. |

Proposals selected - Resilience

13

| | |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Subject: | CRITICAL RAW MATERIALS => merged |
| Leaders: | France + CENELEC |
| Associated members: | <ol style="list-style-type: none">1. The Netherlands2. CEN3. ECOS4. T&D Europe |
| Deliverables: | <p>Develop ISO and EN Standards for CRM according to EU priorities.</p> <p>Fine-tune EU Regulation on CRM and international initiatives.</p> <p>Stance the European positioning at international level.</p> <p>CENELEC is preparing a position paper at this regard.</p> |
| Remarks: | <p>Forum's members should liaise with their respective NSBs / industries, reach out to their experts in other contexts related to raw materials to be aware and be prepared to reply to international initiatives.</p> |
